How to Fight Coronavirus

Coronavirus is spreading quickly in some parts of the world, causing illnesses that can be mild or serious, but there are some simple steps you can take to be safer!

1. Wash your hands often for 20 seconds using soap and water.
2. If you cough or sneeze, cover your mouth and nose with the inside of your elbow.
3. Keep a distance from anyone coughing or sneezing.
4. If you go to the market, don’t touch animals or the area they are in.
5. Alert and then see a doctor if you have a fever, cough, or difficulty breathing.
