SUSTAINABILITY

Sustainability means different things to different organizations.

For Rotary, sustainability means providing long-term solutions to community needs that the beneficiaries can maintain after grant funding ends.
SUSTAINABILITY STEP #1

Start with the community
Identify a need and develop a solution that builds on community strengths and aligns with local values and culture.
Encourage local ownership
Identify key community members who can help pioneer lasting improvements.
SUSTAINABILITY STEP #3

Provide training
A project’s success depends on people.
SUSTAINABILITY STEP #4

Buy local
Purchase equipment and technology from local sources.
SUSTAINABILITY STEP #5

Find local funding

Get local funding through governments, hospitals, companies, and other organizations.

Measure your success
